

PAYMENT CARD INDUSTRY DATA SECURITY STANDARD

Certificate of Compliance

This is to certify that

NPC Labs, Inc.

has successfully passed the external vulnerability scan performed by **Clone Systems Inc. (ASV Certificate #4262-01-19)**, a PCI SSC Approved Scanning Vendor, and is **COMPLIANT** with PCI DSS Requirement 11.3.2 for external vulnerability scanning.

SCAN DATE	SCAN QUARTER	COMPONENTS SCANNED	COMPLIANCE STATUS
September 28, 2026	Q3 2026	1	PASS

Valid from September 28, 2026 through December 27, 2026

This certificate expires 90 days after the scan date, when a new passing scan is required.

Verify this certificate at <https://scan.clone-systems.com/verify/5fb73991-0a3b-41ca-a25d-976dcbcb4b94>

- PCI DSS requires merchants and service providers to have external vulnerability scans performed at least quarterly by a PCI SSC Approved Scanning Vendor (ASV), and after any significant change in the network.
- This certificate indicates compliance with the external vulnerability scanning requirement of PCI DSS only for the components scanned; it does not represent the overall PCI DSS compliance status of the company or provide any indication of compliance with other PCI DSS requirements.
- This certificate is valid for 90 days from the scan date shown above.
